Both of these bridges are the only remaining wood piling bridges in the parish. The cost estimate to replace both of these bridges is \$1.7 million. - Whittington – Resend certified letters to residents on Ron Road about culverts. (No return receipt or unclaimed letter has been received by the Parish office.)
- Discussed wanting an ordinance to put trashcans/tote containers behind the ditch/culverts on non-garbage days. He would like to hold a public meeting to adopt an ordinance to remove trash cans from the side of the road on non-garbage days. Ms. Burley was asked to research current ordinances and potential changes before proceeding.

Neal – 233 Crestview has a +100 foot culvert encompassing three lots. The culverts need to be cleaned out as they are preventing water from flowing. The installed culverts do not comply with ordinances, where the maximum length of a culvert is 40 feet long and then must have a clean out or gap between another culvert installation. The current culvert set up does not allow the Parish to clean out the culverts to maintain proper drainage flow.

This year we expect to receive funding from the FAA and State to rehabilitate the Main Aircraft Parking Apron and build 12 new T-Hangers.

We appreciate the help and support we receive from the Police Jury.

If you have any questions or require additional information please let me know.

Sincerely,
