The members of the Solid Waste Committee and Finance Committee met to discuss the renewal of the Waste Pro Contract. On September 7, 2017, Waste Pro notified the office of Concordia Parish Police Jury that they will continue service, only if the rate were to increase to \$12 per household. Current rate for service is \$7.83. The contract for services remains the same with the exception of the rate increase.

A discussion led to determining the actual amount of households serviced in the area. The contract with Waste Pro allows for up to 5,000 households. Mr. Wilkinson contacted each of the water works districts to determine a count based on water meters serviced. After a tally, approximately 4,382 water meters are in the area serviced by Waste Pro.

A motion was made by Mr. Shirley, seconded by Mr. Cook to approve seeking bids for solid waste service. Motion carried.

There being no further business a motion was made by Mr. Cook seconded by Mr. Shirley that the meeting be adjourned. Motion carried.

Sandi T. Burley, Secretary Treasurer
